

Free Specialist Training

We understand personal development is important. At times, the training you need is not available or affordable.

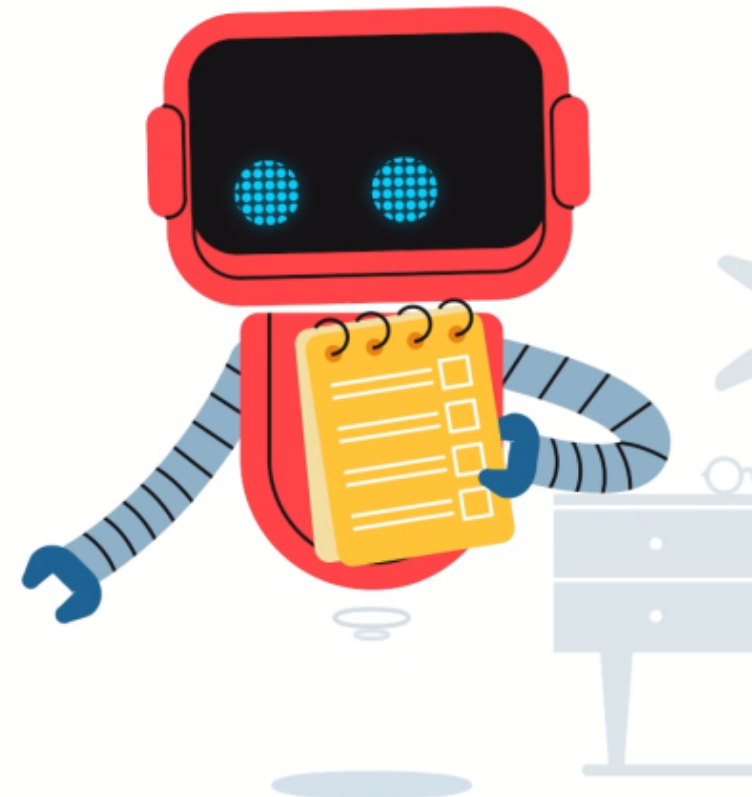

We research issues in the news or relevant subjects such as awareness months.

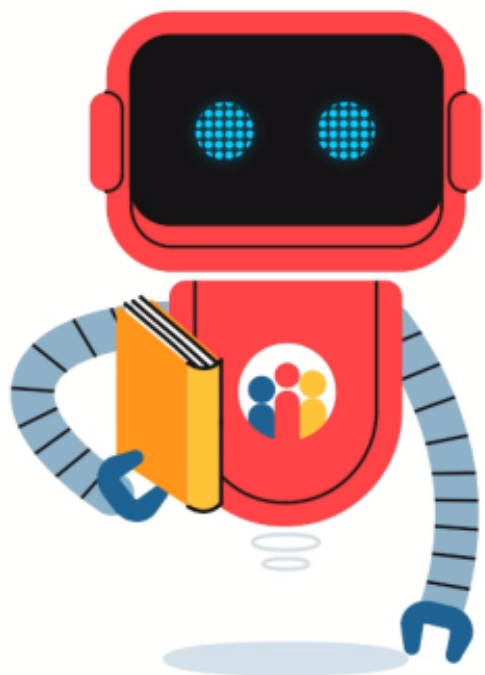

We find a subject specific expert to work with to create a specialist course.

Access the specialist course from your online account completely free for 8 weeks!

Every 8 weeks we work with leading experts to provide at least 2 free specialist online courses. The subjects we choose are based on a few factors, for example, issues that are prominent in the news or subjects based on an upcoming awareness month.

If you would like to suggest any future subjects please email experts@thetraininghub.com

If you would like to know the current free 8 weekly courses please look in your account; alternatively, message us via our live chat which can be found in the bottom right hand corner.
